Symbiosis Community
Outreach Programme and
Extension Activities (SCOPE)
Symbiosis International
University

The goal of Interprofessional Education (IPE) is to achieve universal health coverage. To this end, IPE is being promoted in various regions worldwide. For residents and professionals to learn from each other and enhance the quality of care, IPE that incorporates service learning to address social issues specific to each country or area is essential.

We welcome your participation in a symposium to share and discuss IPE and service learning on a global scale.

Registration To register online, please scan the QR code below.

Everyone is welcome to participate. Please register in advance, watch the on-demand videos from each panelist, and then join the panel discussion.

To register in advance, please use the Google form QR code or the following link:
